Supplemental disclosure with respect to cash flows (Note 11)*The accompanying notes are an integral part of these consolidated financial statements.*

1. NATURE OF OPERATIONS

SilverCrest Mines Inc. (the “Company”) is incorporated under the jurisdiction of the Province of British Columbia, Canada pursuant to the British Columbia Business Corporations Act.

The Company is engaged in the acquisition and exploration of mineral properties in Mexico and Central America. At the date of these financial statements, the Company has not identified a known body of commercial grade ore on any of its properties. The ability of the Company to realize the costs it has incurred to date on these properties is dependent upon the Company being able to identify a commercial ore body, to finance its development costs and to resolve any environmental, regulatory or other constraints, which may hinder the successful development of the property.

These financial statements have been prepared assuming the Company will continue on a going-concern basis. The Company has incurred losses since inception and the ability of the Company to continue as a going-concern depends upon its ability to develop profitable operations and to continue to raise adequate financing.

2. SIGNIFICANT ACCOUNTING POLICIES

The accounting policies followed by the Company are set out in Note 2 to the audited consolidated financial statements for the year ended December 31, 2007 and have been consistently followed in the preparation of these consolidated interim financial statements except that the company has adopted the following CICA standards effective for the Company’s first quarter commencing January 1, 2008.

Effective January 1, 2008, the Company adopted the following accounting standards updates issued by the Canadian Institute of Chartered Accountants (“CICA”).

i) Assessing Going Concern (Section 1400)

The Accounting Standards Board (AcSB) amended the Section 1400, to include requirements for management to assess an entity’s ability to continue as a going concern and to disclose material uncertainties related to events or conditions that may cast doubt upon the entity’s ability to continue as a going concern. The adoption of this standard did not have an impact on these financial statements.

ii) Capital Disclosures (Section 1535)

This new pronouncement establishes standards for disclosing information about an entity’s capital and how it is managed. Section 1535 also requires the disclosure of any externally-imposed capital requirements, whether the entity has complied with them, and if not, the consequences (See Note 7).

iii). Financial Instruments – Disclosure (Sections 3862) and Presentation (Section 3863)

These new standards require additional disclosures to enable users to evaluate the significance of financial instruments for an entity’s financial position and performance. In addition, qualitative and quantitative disclosures are provided to enable users to evaluate the nature and extent of risks arising from financial instruments (See Note 7).

iv). Determining whether a contract is routinely denominated in a single currency

This new standard considers 1) how the term “routinely denominated” in Section 3855.A34(d) should be interpreted, and 2) what factors can be used to determine whether a contract for the purchase or sale of a non-financial item such as a commodity is routinely denominated in a particular currency in commercial transactions around the world. The adoption of this standard did not have impact in these financial statements.

2. SIGNIFICANT ACCOUNTING POLICIES (continued)

Effective January 1, 2009, the Company is required to adopt the following accounting standards update issued by the CICA:

i). Goodwill and intangible assets (Section 3064)

In February 2008, the CICA issued Section 3064, "Goodwill and Intangible Assets", which replaces Section 3062, "Goodwill and Other Intangible Assets". This new standards provides guidance on the recognition, measurement, presentation and disclosure of goodwill and intangible assets. Concurrent with the adoption of this standard, EIC 27, "Revenue and Expenditures in the Pre-operating Period", will be withdrawn. The impact of this new accounting standard on future financial statements is currently being assessed.

3. EQUIPMENT

	Cost	Accumulated Amortization	March 31, 2008 Net Book Value	December 31, 2007 Net Book Value
Equipment and furniture	\$ 17,534	\$ 10,414	\$ 7,120	\$ 9,494

	\$ 57,980	\$ 39,003	\$ 18,977	\$ 20,551

4. MINERAL PROPERTIES

Title to mineral properties involves certain inherent risks due to the difficulties of determining the validity of certain claims as well as the potential for problems arising from the frequently ambiguous conveyancing history characteristic of many mineral properties. The Company has investigated title to all of its mineral properties and, to the best of its knowledge, title to all of its properties are in good standing except as otherwise disclosed.

El Zapote Project, El Salvador

The Company acquired a 100% interest in the properties located in El Salvador by acquiring 100% of the share capital of Minera Atlas S.A. de C.V. ("Atlas") an El Salvadoran corporation which owns certain concessions located in the Department of Santa Ana in Northern El Salvador. The properties are subject to a sliding scale royalty, payable from production, varying from US\$0.20 per ounce of silver equivalent to US\$0.60 per ounce depending on the silver price. The transaction has been accounted for as an asset purchase since Atlas was not considered a business. The Company is also required to complete environmental impact and preliminary feasibility studies to satisfy concession work requirements as defined by El Salvador mining law.

4. MINERAL PROPERTIES (continued)

Santa Elena Project, Mexico

On December 8, 2005 the Company entered into an option agreement to acquire the Santa Elena Project located northeast of Hermosillo, Sonora State, Mexico. The Company has the right to acquire a 100% interest in the Santa Elena property by making the following staged option payments totaling U.S. \$3,000,000 over a period of 5 years and by making a final U.S. \$1,000,000 payment conditional upon receipt of a Feasibility Study and all operating and environmental permits relating to the project.

June 8, 2010		\$600,000
December 8, 2010		\$500,000
TOTAL	US \$	\$3,000,000

The payments totaling US \$2.2 million due from December 8, 2008 through December 8, 2010 inclusive, as well as the U.S. \$1,000,000 conditional payment are payable, at the Company's option, either wholly in cash or up to 50% of each payment in the common shares of the Company at the average price per share for the previous ten trading days.

Silver Angel Project, Mexico

The Company holds a 100% interest in mineral properties located in the Northern Sierra Madre range in Mexico, acquired by concession applications.

Cruz de Mayo Project, Mexico

The Company purchased a 100% interest in the mineral concessions located in the Northern Sierra Madre range in Mexico in 2004.

7. FEASIBILITY FINANCE CREDIT FACILITY

The Company accepted a committed letter of offer dated March 11, 2008 from Macquarie Bank Ltd. (“MBL”) for a \$3.0 million feasibility finance credit facility (the “Finance Facility”) to fund expenditures in relation to the completion of feasibility studies at the Company’s Santa Elena Project in Mexico. The Finance Facility will bear interest at Canadian Dollar LIBOR rate plus 2.75% per annum on amounts drawn down. Outstanding amounts will be repayable by the earlier of May 28, 2010 or when the first draw down of any financing arrangements made for the development of the Santa Elena project.

In consideration for the provision of the Finance Facility, the Company has agreed to pay MBL certain MBL certain fees customary for such a facility and to issue 2,307,692 warrants on closing. The warrants will vest pro rata with draw downs under the Finance Facility and will expire on May 28, 2010. Each vested warrant will be exercisable to purchase one common share of the Company at a price of \$1.30. The proceeds of any warrant exercise are to be first applied to repay any outstanding amounts under the Finance Facility.

8. RELATED PARTY TRANSACTIONS

The Company entered into the following transactions with related parties during the three months ended March 31, 2008:

- a) Paid or accrued \$51,000 (2007 - \$51,000) for management fees to two companies each of which is controlled by an officer and director of the Company.
- b) Paid or accrued \$25,500 (2007 - \$25,500) for project management fees to a company controlled by an officer of the Company which are included in deferred exploration costs.
- c) Paid or accrued \$59,671 (2007 - \$1,533) for legal fees paid to a law firm in which an officer of the Company is a Partner and which were included in professional fees and share issuance costs.

These transactions are in the normal course of operations and are measured at the exchange amount, which is the amount of consideration established and agreed to by the related parties.

9. FINANCIAL INSTRUMENTS RISK EXPOSURE AND MANAGEMENT

The Company is exposed to various financial instrument risks and assesses the impact and likelihood of this exposure. These risks include liquidity risk, credit risk, and interest rate risk. Where material these risks are reviewed and monitored by the Board of Directors.

a. Capital Risk Management

The Company manages its capital to safeguard the Company’s ability to continue as a going concern, so that it can continue to provide adequate returns to shareholders and benefits to other stakeholders, and to have sufficient funds on hand for business opportunities as they arise.

The Company considers the items included in the shareholder’s equity as capital. The Company manages the capital structure and makes adjustment to it in the light of changes in economic conditions and the risk characteristics of the underlying assets. In order to maintain or adjust the capital structure, the Company may issue new shares through private placements, sell assets, incur debt, or return capital to shareholders. As of March 31, 2008 the Company has no debt and is not subject to externally imposed capital requirements.

b. Liquidity Risk

Liquidity risk is the risk that the Company will not be able to meet its financial obligations as they fall due. The Company maintains sufficient cash balances to meet current working capital requirements. The Company is considered to be in the exploration stage. Thus, it is dependent on obtaining regular financings in order to continue its exploration programs.

9. FINANCIAL INSTRUMENTS RISK EXPOSURE AND MANAGEMENT (continued)

b. Liquidity Risk continued

Despite previous success in acquiring these financings, there is no guarantee of obtaining future financings. The Company's cash is invested in business accounts with quality financial institutions and which is available on demand for the Company's programs, and is not invested in any asset backed commercial paper.

c. Credit Risk

Credit risk is the risk of potential loss to the Company if the counterparty to a financial instrument fails to meet its contractual obligations. The Company's credit risk is primarily attributable to its liquid financial assets including cash and equivalents, value added tax receivable and accounts receivable. The Company limits exposure to credit risk on liquid financial assets through maintaining its cash and equivalents with high-credit quality financial institutions.

The majority of the Company's cash and cash equivalents and short term investment are held with major Canadian based financial institutions.

d. Currency Risk

The Company's operations are in Canada, Mexico and El Salvador. The international nature of the Company's operations results in foreign exchange risk as transactions are denominated in foreign currency.

The operating results and the financial position of the Company are reported in Canadian dollars. The fluctuations of the operating currencies in relation to the Canadian dollar will, consequently, have an impact upon the reported results of the Company and may also affect the value of the Company's assets and liabilities.

Taxes receivable due from the Mexican government are denominated in Mexican Pesos which is subject to currency risk arising from the fluctuations in the Mexican Peso.

The Company has not entered into any agreements or purchased any instruments to hedge possible currency risks at this time.

e. Interest Rate Risk

The Company's exposure to interest rate risk arises from the interest rate impact on its cash and cash equivalents. The Company's practice has been to invest cash at floating rates of interest, in cash equivalents, in order to maintain liquidity, while achieving a satisfactory return for shareholders. There is minimal risk that the Company would recognize any loss as a result of a decrease in the fair value of any guaranteed bank investment certificates included in cash and cash equivalents as they are generally held with large financial institutions.

The estimated fair value of financial assets is equal to their carrying values. At March 31, 2008, the Company's financial assets were held in the following currencies:

Stated in Canadian Dollars

Carrying Value	Canadian Dollar	US Dollar	Mexican Peso	Total
Cash and cash equivalents	\$ 10,919,710	\$ 4,340	\$ 72,908	\$ 10,996,958
